Viewing Students' State Assessment Scores

1) Visit https://parentportal.kiteaai.org/ and enter your email address.
   Note: USD 232 uploads parent email addresses from Skyward– so if your email address has changed, please notify Tami Casey (tcasey@usd232.org), so she can change it in the KITE Parent Portal).

   You will see a screen like this:
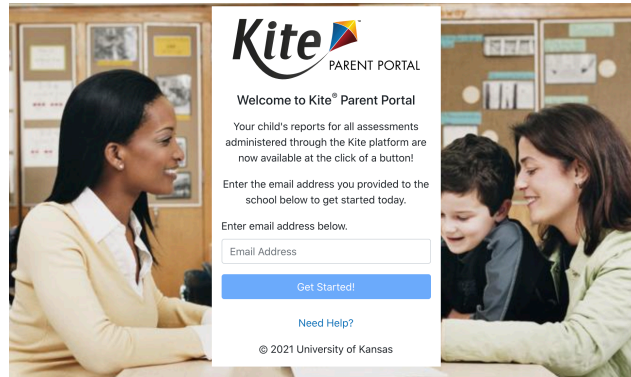

2) Once you put in your email address, and hit "Get Started!", your email will receive a randomly generated token/access code from kite-support@ku.edu (be sure to check junk folders if you don't see it in your main email) that will act as a password. Please note that every time you go into the portal to view scores, you will get a new token/access code sent.

3) Once you are in the portal, you will get an image like this with student names and blue "view report links" below student names.
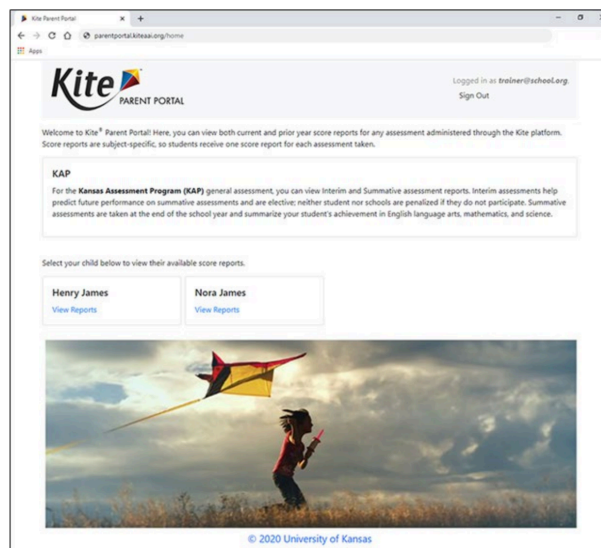

4) After you select the view reports link for a student, you will get a screen that looks like this:
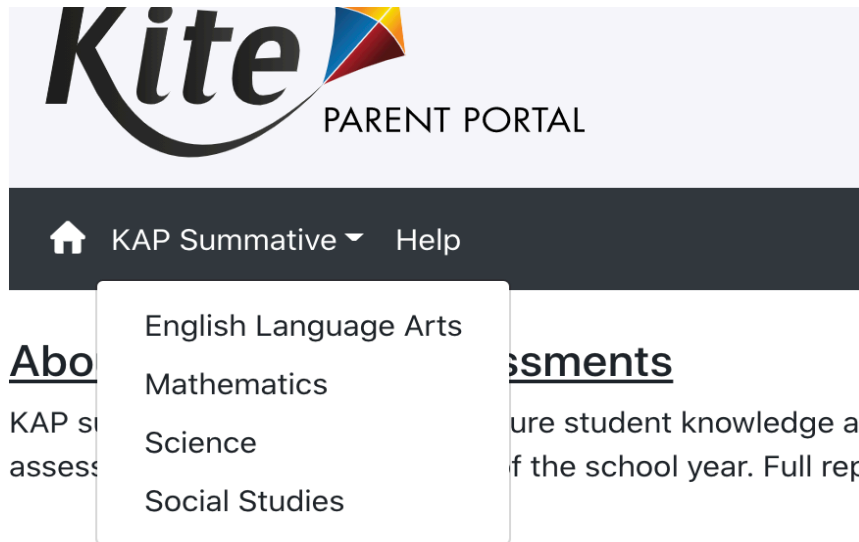

5) Please note that the types of assessments listed will only show up if students have participated in these. [Students may only have "KAP Summative", which refers to the general state assessments in which students participate in grades 3-8, 10 and 11.]

6) Once you click on the subject (item #4 above), you will get a screen like this. Clicking on the PDF icon will get you the report.
